Good Morning Fox,

I hope this email finds you well. During the time period of my PDC reporting errors/late filings mentioned below I wanted to supplement my response by stating that I was going through a personal crisis and was not paying as much attention to the filings as I should have. That combined with the assumption I thought I had a "grace period" to file, those were the reasons for not filing timely. I have now hired someone to help ensure I file timely going forward and amend the unintentional errors made in the past reports. Thank you for your consideration for leniency. Have a nice day and weekend.
