

LISA HOMER^(R)

for County Commissioner, District 3

As a fourth-generation immigrant to the Valley, I understand the dynamics of our community. My family was in the agricultural business and still is after 100 years. I understand the struggles of the farmer because I grew up working on the family farm alongside the agricultural workers. My great-grandfather, Frank Boisselle, was commissioner from 1935-1941.

I volunteer on several boards of directors for organizations that deal with important community issues. I am passionate about making Yakima a better place for our children, grandchildren, and future generations to come.

Economic Development: Throughout the Valley there are communities experiencing growth. There is a need for infrastructure support and maintenance to keep pace with various projects. I will work to ensure that communities can continue to grow.

Fiscal Responsibility: I will work to find alternatives to taxes so that we can keep pace with our Valley's growing needs in a responsible and cost-effective manner.

Leadership: At times, I may be required to take a stance and protect the Valley's best interests. I will always advocate for the needs of the people of Yakima County.
