

To whom it may concern

This is my first campaign and as I was purchasing marketing from various companies throughout my campaign. I was very careful to fix any mistakes that were made without disclosing, the "Paid for by the Committee to Elect Lisa Homer" or the Republican (R). I would add stickers to any material to make them compliant. I was referred to Postcardmania through our local post office for my mailer. They are located out of Florida. I sent over the material for their use and I even remember mentioning to the Alex, my salesman at Postcardmania that this needed to be added, since this was a common mistake among the printing companies. The mailer was done so late in the campaign and I didn't receive a final proof. It was too late after they mailed them direct to do anything about their mistake, the mailers arrived without the correction.

Sincerely,

Lisa Homer
