Compliance Coordinator 2
Washington Public Disclosure Commission

VIA EMAIL

Re: Sean Bates and Scootney Springs Elementary School Officials (PDC Case No. 60443)

Dear Mx. Blackhorn:

As legal counsel for the Othello School District (“School District”), I have been asked to respond to your November 25, 2019 email on behalf of the School District.

For the reasons described below, the School District denies that any school official or employee misused school district facilities to support the election campaign of Mr. Tony Ashton. And, as explained in more detail below, the School District further denies other assertions made in the complaint.

Background

By way of background, the School District has a long history of making its facilities available to community members and organizations. Indeed, [School Board Policy 4260](#) encourages the public to use school facilities and authorizes the Superintendent to establish procedures for such use. The attached Numerical Record of Facility Rentals dates back almost twenty years and demonstrates that the public has listened to that encouragement. The Numerical Record shows that it is normal and regular for all sorts of individuals and organizations—churches, community groups, governmental entities—to use the School District’s facilities.

Among the organizations that the School District has allowed to regularly use its facilities are The Democrats of Adam County and the Adams County Republican Party. *See, e.g.*, Numerical Record, Entry Nos. 303, 306, 649, 674, 684, & 856. Consequently, not only is it normal and regular for the School District to allow use of its facilities by a wide variety of users, but it also is normal and regular for the School District to allow such use by organizations that assist campaigns for the election of persons and that promote or oppose ballot propositions.

The Numerical Record does not log every situation in which school facilities are used by the public. Rather, the Numerical Record is used to log more formal usage, which is typically accompanied by a facility usage agreement. There are times, however, when school facilities are used on an informal basis during the day by individuals and groups without need for such a formal agreement. By way of just a few examples, set forth below are situations where, consistent with

the School District's normal and regular procedure, the public recently used school facilities without a facility usage agreement:

- On September 18, 2019, between 2:00–4:30 p.m., Grand Canyon University used school district facilities to hold a meeting for individuals who might be interested in enrolling in its programs.
- On September 19, 2019, between 7:30 a.m.–4:30 p.m., a Washington Education Association representative used school district facilities to conduct a meeting regarding an employment matter unrelated to the Othello School District.
- On October 21, 2019, November 4, 5, and 15, 2019, American Fidelity used school district facilities for meetings regarding medical benefit offerings to individuals.

In each of the above situations, the outside organization requested the use of school district facilities, and those facilities were made available to them without a facility usage agreement—showing the normal and regular procedure of the School District to make school facilities available on an informal basis without a facility usage agreement.

Facility Usage by Mr. Tony Ashton

Similar to the informal facility usage described above, the facility usage requested by Mr. Ashton occurred consistent with School District's normal and regular procedure – that is, on an informal basis without a facility usage agreement. Mr. Ashton asked the School District Superintendent, Dr. Kenneth “Chris” Hurst, if he might use school facilities for a couple of hours during the day to film a promotional advertisement. Dr. Hurst was made aware that Mr. Ashton's use of school facilities was related to a campaign by Mr. Ashton unrelated to the Othello School District.

To ensure that such use was permissible, Dr. Hurst contacted legal counsel and reviewed the “PDC Guidelines for School Districts in Election Campaigns,” – guidelines that are incorporated into [School District Procedure 4400P](#). As the PDC is aware, those guidelines refer to use of school district “Meeting Facilities” and say this:

District meeting facilities, including audio visual equipment, may be used by campaign committees for activities on the same terms and conditions available to other community groups, subject to the provisions of the district's policy.

After consulting with legal counsel and reviewing the PDC guidelines, Dr. Hurst gave Mr. Ashton permission to use school facilities just as was done with others that sought the same usage.

Worth noting is that the complaint to the PDC refers to a single sentence in Board Policy 4400, making it seem as though the School District prohibits its facilities from being used by those who assist in campaigns or those that promote or oppose ballot measures. However, when the Policy is read in its entirety (and in conjunction with the Procedure), it becomes clear that the School District allows its facilities to be used for such purposes if the use is consistent with the PDC guidelines.

Specifically, the last sentence of Policy 4400 states: “The superintendent will develop procedures for implementing this policy that are consistent with the guidelines provided by the Public Disclosure Commission at <http://www.pdc.wa.gov/>.” The formal procedure developed by the Superintendent is the one quoted and linked to above: Procedure 4400P. As mentioned earlier, that procedure incorporates the PDC guidelines. Those guidelines (via the procedure) read together

with Policy 4400, make clear that school facilities may be used for election campaigns “on the same terms and conditions available to other community groups.”

Moreover, in the PDC guidelines and Procedure 4400P there is a column labeled “General Considerations.” The first such consideration, regarding use of meeting facilities, is whether “community groups typically use school facilities.” As shown above, community groups do typically use school facilities. The second “General Consideration” is whether the school facilities are “made available to all groups on the same terms.” Again, as shown above, the school facilities are made available to all groups on the same terms as usage by Mr. Ashton (and vice versa).

Alleged Misfeasance by Dr. Hurst

The complaint to the PDC also includes a description of events in which Eleanor Brodahl asserts that the Superintendent deliberately blocked her view of Mr. Ashton’s use of school facilities because the Superintendent knew Mr. Ashton’s use of the facilities was impermissible and, therefore, didn’t want Ms. Brodahl to see. That assertion is not correct. First, the Superintendent never saw Ms. Brodahl that day. Instead, knowing that Mr. Ashton was using the room for filming, the Superintendent closed both doors to the room at some point to minimize noise and distractions. Second, as already explained, the Superintendent rightfully believed that Mr. Ashton’s use of school facilities was appropriate and, thus, he had no reason to hide Mr. Ashton’s use of the facilities from Ms. Brodahl. Therefore, the complaint’s assertion of malfeasance by the Superintendent is baseless.

I hope the above is helpful in your initial review of the complaint. Should you need any further information, please do not hesitate to let me know.

Sincerely,

Paul E. Clay
Attorney for Othello School District

Encl.

cc Kenneth "Chris" Hurst Sr., Ed.D., Superintendent
