To Whom It May Concern --

It has come to my attention that "Replace Mark Lindquist: Restore Integrity to the PCPAO", any treasurer it may have, any officers it may have, and any parent or subsidiary organization associated with it (hereafter collectively referred to as "respondent") have habitually and willfully committed frequent and multiple violations of RCW 42.17A. Additionally, I have reason to believe that other violations of this chapter have occurred beyond what I have identified below.

I am alleging the following violations: failure to register as a political committee within 2 weeks of making expenditures, failure to file C-3 and C-4 reports, failure to file C6 reports, and failure to include appropriate sponsor identification or top 5 contributors on their page or in their advertisement.

Please see attached screenshot was taken on March 11th, 2018, however their paid political advertisement campaign may have begun earlier than that. At any rate, their 2 week time period to register has elapsed. Note the "sponsor" tag at the top of the ad. This indicates that money was paid for it and substantiates my complaint.

I was unable to view Facebook's commercial books of account to verify the amount that was paid.

This is being filed exclusively as a PDC complaint in anticipation of ESHB 2938's effective date. It is my desire that the PDC assert no jurisdiction over this complaint unless they actually intend to enforce the law by fining the violator within 90 days. This would be highly unusual given their recent poor track record.

Best,
