To: "PDC Support" <pdcc@pdcc.wa.gov>

Attached is a picture of my campaign flyer with a sticker attached to the top left with the proper "Paid for by" language. Also to be thorough, I have attached my printed campaign postcard with the same sticker attached to the top left corner. Do both of these examples meet the requirements?

Reducing Traffic

Bothell is facing a growing traffic problem. Congestion continues to get worse, public transit options are scarce, and light rail isn't currently planned for Bothell.

I am committed to bringing relief to our roadways so Bothellites can spend more time with family and less time sitting in gridlock.

Expanding Green Space

Our city is home to many great parks and trails. This pandemic has only made it more apparent how crucial these spaces are to our mental health and physical well-being.

I will make sure the City of Bothell supports thriving green spaces going forward.

Strengthening Community

It's not a question of whether Bothell is growing, but how fast. With that growth comes growing pains. We must adopt a people-oriented approach to designing and planning.

I will prioritize walkable neighborhoods, vibrant public spaces, and expanded infrastructure for bicycles.

Meet Matt

I have a dual bachelor's degree from the University of Washington in political science and economics.

Currently, I serve as a Legislative Aide in the Washington State House of Representatives, and I have previously worked as staff in the Washington State Senate. For the past five years, I have engaged with community members and stakeholders on legislation to improve our community. Top issues include:

- Improving access to health care
- Making the environment a priority
- Fully funding education

Today, I serve on the Bothell Landmark Preservation Board where I work with fellow board members to advise the city on development projects.

My partner, Kaylee, is finishing her master's degree in education to teach high school here in Bothell.
