We believe we reported everything in an appropriate and timely manner. We have been paying a small fortune to our accountant for years to ensure that everything is filed correctly and on time.

We are a volunteer committee in a small community, and Mr. Lenk knows all of us by name. These frivolous complaints are not only unhelpful, but feel spiteful in nature.

If Mr. Lenk thinks he can run the committee more efficiently, he is welcome to join us. We have met with him before, and are happy to meet with him in person again to allow him the opportunity to educate us on how we should be running this committee.

He claims he is against government waste yet he continues to file these complaints against us, wasting not only our time, but precious public resources from the PDC office as well. On behalf of Pasco, I'd like to apologize for people like Roger Lenk who continue to waste your time and keep you from doing more important work.

Sincerely,
Marcia Stillwell
Pasco Citizens for Better Schools
