Good afternoon,

This email is in response to the Alleged Violation of RCW 42.17A for use of public facilities to promote a candidate (EY21;21). Case Manager, Alice.

The Website, retainetheldaburke.com which included photos that were taken on public facilities, was completely removed on or before July 16, 2021. A completely new Website (voteetheldaburke.com) was launched within a week after the original Website was removed.

I offer my most sincere apology for the infraction. Had I been aware that the photos were a violation of the PDC regulations, I never would have allowed the photos to be placed on my website.

Please notify me, if there is anything further that I should do to rectify this matter.

Best regards,

Ethelda Burke
