I am responding to attempt to halt this barrage of unfounded complaints by those supporting Stan Chalich. You will also be hearing from our attorney with further details.

My campaign HAS NOT received a single penny from WA Citizens for Liberty. All of my donations have been from concerned parents, concerned grandparents, friends, or concerned citizens. I have been very clear to my supporters that I am adhering to the rules to the best of my ability. I have been clear that I will be totally honest with all donations. I have taken great effort to ensure I keep track of every last penny donated to my campaign and every expenditure, including the 5.00 donation I received by PayPal. I opened a new bank account that is strictly used for the campaign. I have ensured that I stay below the \$500 per person and \$5000 total donation limits.

The postcards stating this is not your regular PTA were designed and purchased by a concerned grandma without my knowledge or approval. She reached out wanting to do a postcard to hand out to parents. I told her that I wanted to see all material being designed and distributed. She then said she was too busy to do it anyway and donated to my campaign so I could purchase more of my campaign flyers so there was no further discussion about it. I was surprised when she arrived at a meeting with the postcards. I cannot control what others do outside of my campaign. I did not authorize them. I did not pay for them. WA citizens for Liberty did not pay for them. She innocently designed them and purchased them in an effort to help. I cannot be held accountable or punished for what others do without my permission.

Rob and Grant Wolf will discuss further financials related to WA Citizens for Liberty. I am responding related to my campaign. I assure you I am honest, telling everybody I will be honest, and doing everything possible to adhere to the rules. This is a significant slap in the face to continue to have complaints levied against me that are unfounded. Please assist in remedying these issues.

Thank you,

Pam
