Hi,

My name is Alisha Lasch and I am responding to a complaint filed due to the PDC filings of our group.

I took over as treasurer of this group in April 2022. When I took over the task of PDC filing requirements was never mentioned to me as part of my duties. I have no experience with PDC filings as the other organizations I have been involved in as a treasurer did not have this requirement. It wasn't brought to my attention until October of 2022 that I needed to be doing these filings. I contacted PDC support on several occasions asking for help as I did not have access to any of the old filings. We had two campaigns during this time. April 2022 Bond and August 2022 Levy. I submitted these filings on the information I had available and to the best of my knowledge. I sent an email in January of this year explaining the situation and was told by Alex Wood to save the email in case we needed it for future use which I do have that email showing it was sent and received. This is our response as to why filings were not completed within the required timeframe.

I inputted deposits based off of bank statements as I did not have any copies of checks deposited for February of 2022 as this was before I was even on the committee as treasurer. I will go to our bank to try and get copies of the checks deposited in February of 2022 so I can amend the report submitted. Once I have that information, how do I submit an amended report with the donor information?

Thank you for any help you can provide.

Alisha Lasch
