The reason why the city's email and phone number was used was because this is my first time running and where is said list campaign contact I thought it meant the City of Sprague was my campaign contact and that is why I put that. I didn't know that it was my personal email and phone number. I do apologize and it won't happen again. In no way shape or form is the City using public funds for my campaign and they do not have anything to do with my campaign.

Thanks,
