Good morning

PDC Case Number **149574**.

Complaint #1 I was volunteered to help with this campaign late in 2023. Regardless of the complainants opinion that we are a well organized PAC, I would argue that we are not a well organized PAC and that is why we have made some mistakes. The bank statement I was given when I was handed the bank records showed a balance of \$1853.00. \$1853.00 is the balance that I reported because the current bank balance was the only document that I had that spoke to balance.

Complaint #2 Yes we were late. I was struggling to learn PDC and was in communication on several occasions with PDC staff who were wonderful in leading me in the right direction. In the end the PDC staff had their IT team correct how we were filing and once that was complete I got all the information in.

Complaint #3 I do not understand the specifics of the complaint based on the way that the complaint is articulated. If we reported an expense for a decal, are we supposed to submit an example or describe what we are doing with the decals? They were round decals that were about two inches that local business put on their product packages. I don't think that we violated anything with our printed materials

The digital sign was an in-kind contribution valued at \$1000 by Sunbelt Rentals that was disclosed as an in-kind contribution, so I am not understanding what the complaint is specific to the sign?
