Hannah Won is the unstable daughter in law of a woman from a past relationship. She has sent crazy comments to my business website ...Zacconi-us.com. I have been advised by my attorney to have no contact with these people or any spurious claims.

She had no access or contact with my Campaign, Campaign Manager/Accountant who is now deceased Susanna Orr. Also her mother in law had no access to my campaign. This is an attempt to adversely impact me since I had determined them unstable during my campaign. Please do not waste any of your time on this spurious claim. I no longer live in Washington.

Please remove me from any association with PDC and such false claims.
