

Fri, 2 Aug 2024

Below is the response to your questions. If you have any further questions, please let me know.

Mitch Short

- What happened to the Apple computer purchased in October of 2023?

It is in her legislative campaign storage boxes, along with the IPAD.

- What was the Apple computer used for?

She used it for legislative campaign activities.

- What is the current status of that Apple computer, where is it and how is it being used, if at all?

As stated above, it is in her legislative campaign storage boxes. It is not being used.

- If the Campaign purchased an Apple computer in October of 2023, why did the Campaign purchase an IPAD in February?

The Apple computer was left at her home, and she was in Olympia in session. She needed something to do legislative campaign digital advertising with and do to campaign Zoom calls.

- Was the IPAD used for any purpose that the Apple Computer could not do?

The digital advertising program needs a touch screen, which the computer does not have.

Concerning the transfer of surplus funds to the WSRP,

- Did the WSRP solicit the transfer of those funds, and if no why was the surplus funds transfer made at that time?

I am not aware of any solicitations. Obviously, Jacquelin did not direct the WSRP on how to spend the money since they have run six hit pieces against her in her congressional campaign.

Concerning the payments made to the ROC Foundation:

- Please describe the scope of the work being conducted by the ROC Foundation for the \$10,000 payment received from the Campaign on April 11, 2024.

My first responsibility was to keep the campaign running until the May filing period passed. This was to give Jacquelin Maycumber time to decide if she was going to run for Congress or to run for the legislature again. If she ran for the legislature again, I would manage that campaign. If she decided to run for Congress, I would facilitate the closure of the legislative campaign, including returning general fund donations and other issues that may arise.

- Was there a contract executed between the ROC Foundation and the Campaign?

No. I have known Jacquelin for sixteen years and her word is her bond.

- If yes, please provide a copy of the contract.

- Is the ROC Foundation providing consulting or other services to the Jacqueline Maycumber for Congress in 2024?

No.
