

PDC,

Mr. Edwards is correct. The C4 for November 2024 was filed late due to our misunderstanding concerning C4 filings for a month when no funds were distributed. The incomplete November C4 was revealed in early January while doing a review of our records. The C4 was filed at that time as well as the C4 for December of 2024. The requirement to file reports by the due date irrespective of changes to funding balances has been reviewed. PDC materials were reviewed by staff and the PDC reporting calendar for the upcoming year was reviewed to prevent future occurrences. Our sincerest apologies for the oversight.
