Tabitha,

This email is to confirm that all the violations listed below have been attended to.

The balance from the previous year has been corrected with a deposit correction in January 2025 of \$2750.00 this deposit was not recorded correctly just the balance was changed.

The balance has been corrected and the deposit was recorded in January 2025. All the reports since January through May 2025 have been amended to reflect the correct balances.

The expense for \$476.87 has been noted with a description and added sub vendors to the expense. February 2025 has also been amended.

My account was not showing the reports due for the pre-Primary C-4 since I needed to request the Primary and General elections for the reports to show in the Q. I received help from PDC to activate the reports. I have filed both reports that were due. The next report I show due is 9-10-2025.

I have been always waiting for my bank statements in the mail to balance before filing report. I have been to get a log in to the bank now so I can get the statements on the 1st of each month so I can balance do the reports quicker.

Please let me know if you need anything else.

Thank you,

Lori
